Guide for ALL

Guide for ALL is an innovative app that sipports peple who are blind or have low vision. Our aim is to utilize the power of volunteers to enrich the daily live of visually impaid people.

Through this app, we create an environment where people in need of support and volunteers can connect and learn from each other.
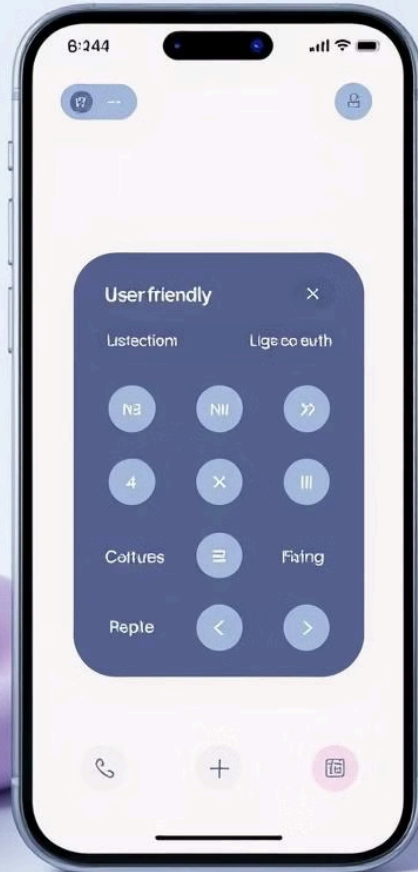

A symbiotic society created by everyone

world population	5 billion people
Potentially visually impaired	Over 45 million people
Future outlook (2050)	Over 135 million people

"Guide for ALL" aims to realize a cohesive society where everyone supports each other.

App features

1   **Easy operation**

The intuitive interface makes it easy to use, even for people with visual impairments. Audio guidance is also available.

2   **real-time matching**

You can quickly connect with volunteers when you need them. Minimize waiting time.

3   **security**

We prioritize user safety and prioritize users with high volunteer scores.

4   **Diverse support**

We can respond to a variety of needs, from shopping assistance to directions to clothing colors. No limit on support hours

Volunteer role

1 **Registration**

After a simple screening, you will register as a volunteer. To ensure safety, a SNS account is required.

2 **training**

Learn how to support visually impaired people online. Learn basic guiding techniques and mindset.

3 **activity**

We receive requests for support through the app and carry out actual activities. After the activity, we use a mutual evaluation system to increase reliability.

App development plan

Enhanced AI functionality

1

Utilizes artificial intelligence to achieve more accurate matching. Learn your preferences and habits to provide optimal support.

Multilingual support

2

We will introduce multilingual support to make it easier to use for foreign tourists and foreign residents.

Cooperation with other services

3

We will strengthen collaboration with transportation agencies and public facilities and build a seamless support system.
